

Ready displays directly from the manufacturer ...

... and right into the shop.

**CC Dolly**

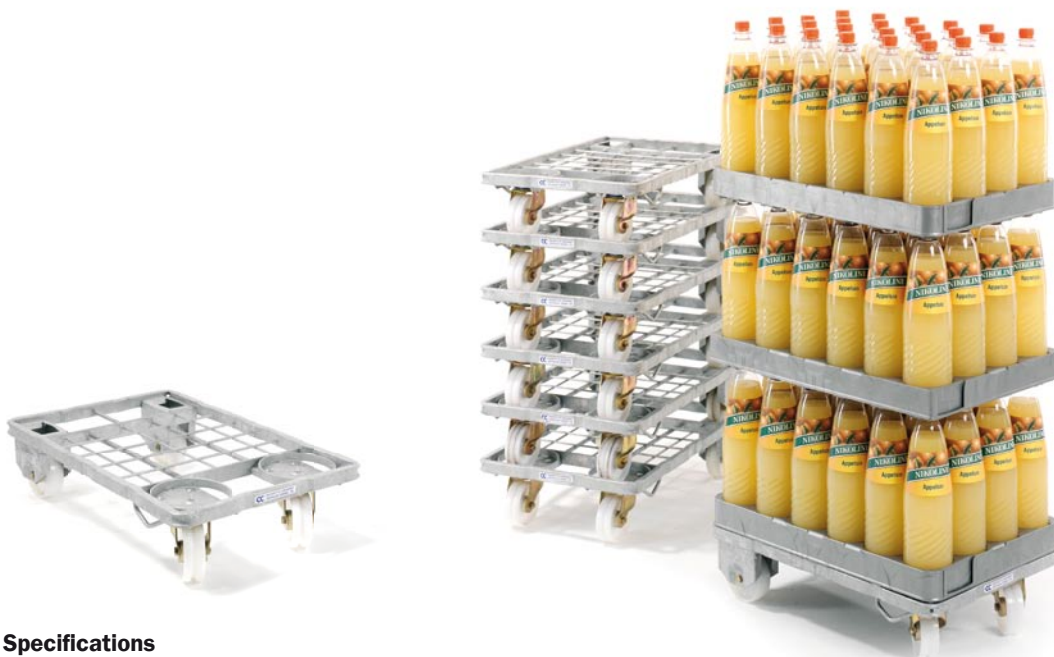

## The rolling quarter pallet

### A high-quality pallet on wheels – for modular packaging

CC Dolly is a rolling quarter pallet with the same internal dimensions as a ¼ Euro Pallet to match all European standard measures. It's developed especially for transporting modular packaging (crates, cardboard boxes, plastic trays for bottled drinks etc.), and each pallet can carry up to 200 kg. To ensure protection from corrosion, CC Dolly is made from hot dip galvanised steel and can be used or stored at temperatures ranging from -30°C to +70°C.

### Can roll directly to the supermarket floor

The discreet construction of the CC Dolly makes it a perfect carrier of in-store displays. With the narrow profile in height it's almost unnoticeable, so your products will be the eye-catchers – not the CC Dolly. And with everything moving on wheels, your products can be rolled directly into the store from the backroom by one person alone – even without lifting equipment. The rounded corners provide safety in use and make it easy to position.

### Specifications

Size	External	Internal – Accommodation for one stack of crates at:
Length	603 mm	600 mm
Width	403 mm	400 mm
Height	152 mm	
Weight	7.5 kg	
Carrying capacity	200 kg UDL*	

\* UDL: Uniformly Distributed Load

Making your products move

## The rolling quarter pallet

### What you get with the CC Dolly:

- 1 Developed for transporting modular packaging** – crates, cardboard boxes, plastic trays for bottled drinks etc.
- 2 Works with all other transport items** of European standard dimensions. The internal dimensions of the CC Dolly are corresponding to  $\frac{1}{4}$  Euro Pallet.
- 3 Extra product protection.** The external proportions are wider than the internal, providing space to protect the carried products.
- 4 Ideal as a retail display carrier.** Discreet construction makes your products the eye-catchers – not the pallets. The CC Dolly can be rolled directly into the store.
- 5 Safe to use.** Smooth rounded corners provide safety in use and make it easy to position. They match the rounded corners of the CC Freshbox and the CC Eurocrate.
- 6 Can endure dramatic changes in temperatures.** It can be used, stored or washed from  $-30^{\circ}$  to  $+70^{\circ}$ . The shape and dimensions of the CC Dolly will remain unchanged.
- 7 Ensures a cost-efficient return flow.** For return logistics, it's stackable, and the unique design ensures that the stack will not slide.
- 8 A durable construction ensures perfect product safety.** Made from hot dip galvanised steel to ensure protection from corrosion.
