

CC Euro Dolly can be filled with goods ...

... and be rolled directly into the store, displaying the goods it's carrying.

CC Euro Dolly

The RFID-tagged rolling quarter pallet

An RFID-tagged rolling pallet, that meets all future demands

CC Euro Dolly is a quarter pallet created especially to make handling easier – both manual handling and handling with mechanical and automated equipment. Everything is moving on wheels, and the easier handling saves both time and costs, especially in the cross-docking process and when handling in the outlets. It has the same internal dimensions as a ¼ Euro Pallet and is designed for transporting modular packaging (crates, cardboard boxes, plastic trays for bottled drinks etc.). To meet future demands, two RFID-tags are incorporated in the deck, one on each long side. In addition, an EAN bar code label is attached to each long side.

A neutral design makes your products stand out

CC Euro Dolly is made from the robust material, High Density Polyethylene that is UV-protected. The discreet construction makes it a great in-store display carrier, and it's compatible with most used cardboard displays. With the narrow profile in height and the unobtrusive colour it's almost unnoticeable. This ensures that your products get all the attention – not the CC Euro Dolly. And with everything moving on wheels, your products can be rolled directly into the store from the backroom, by one person alone – even without lifting equipment. But if you prefer, you can use handling equipment – e.g. pump/fork lift trucks – from all sides.

Specifications

Size	External	Internal – Accommodation for one stack of crates at:
Length	600 mm	600 mm
Width	400 mm	400 mm
Height	173 mm	
Weight	5.3 kg	
Carrying capacity	250 kg UDL*	

* UDL: Uniformly Distributed Load

Making your products move

CC Euro Dolly

The RFID-tagged rolling quarter pallet

What you get with the CC Euro Dolly:

- 1 Developed for transporting modular packaging** – crates, cardboard boxes, plastic trays for bottled drinks etc.
- 2 Very suitable for mechanical handling.** Can be handled from all sides with a pallet or fork lift truck.
- 3 Ready to meet future demands.** RFID-tags are incorporated in the deck, and EAN labels are attached to both long sides.
- 4 Recyclable and cadmium-free.** Made from High Density Polyethylene.
- 5 Works with all other transport items of European standard dimensions.** The size of the CC Euro Dolly is corresponding to $\frac{1}{4}$ Euro Pallet.
- 6 Ideal as a retail display carrier.** Discreet construction makes your products the eye-catchers – not the CC Euro Dolly. The CC Euro Dolly can be rolled directly into the store.
- 7 Safe to use.** The smooth rounded corners provide safety in use and make it easy to position. They match the rounded corners of the CC Freshbox and the CC Eurocrate.
- 8 Can handle dramatic changes in temperatures.** It can be used, stored or washed from -30° to $+50^{\circ}$. The shape of the CC Euro Dolly will remain unchanged.
- 9 Ensures a cost-efficient return flow.** For return logistics, it's stackable; the wheels can be fitted into a locating pocket on the CC Euro Dolly below.
